

Post-Match Physical Performance Report

Game 4 (Week 20, microcycle 22)

Match date: 20 November 2022

Source: Match Days = MD

Opponent: Opposition (MD)

Result: —

WIMU PRO (GPS + inertial)

Executive summary (coaching staff)

- Match context: 20 November 2022 (Game 4 (Week 20, microcycle 22)), Match day vs Opposition (MD). Squad analysed: n=15 players.
- Highest HSR volume: Player 3 (Midfielder) — 1310 m HSR.
- Peak speed: Player 13 (Striker) — 33.9 km/h.
- Sprint count leader: Player 9 (Winger) — 23 sprints.
- By position, mean HSR is highest in Fullback (831 m), then Midfielder (688 m).
- Mechanical load: mean HI accelerations 42.7 vs HI decelerations 50.5 (Acc/Dec ≈ 0.85). Monitor recovery for roles with high deceleration demand.
- Next microcycle: align high-intensity and deceleration exposure for Fullback and Winger groups to match match demands, individualised by minutes played.

Position summary

Player	Position	n	Dur (min)	Total (m)	HSR (m)	HSR %	m/min	HIBD (m)	HMLD (m)	Sprints	Sprint m	Vmax	HI acc	HI dec	Acc/Dec	Max acc	Max dec	MP (W/kg)
Team average	—	15	70.6	7057	571	8.1	101.9	270	1821	12.7	264	30.3	42.7	50.5	0.83	5.09	-5.90	22627
Centerback	Centerback	2	96.3	9622	571	5.7	99.9	324	2448	12.0	183	29.9	63.5	60.5	1.05	4.79	-6.34	31197
Fullback	Fullback	2	96.3	9797	831	8.2	101.7	412	2504	21.5	385	32.4	64.5	79.0	0.81	5.54	-6.32	31532
Goalkeeper	Goalkeeper	1	96.3	4976	0	0.0	51.6	84	437	0.0	0	22.0	19.0	20.0	0.95	5.14	-4.94	16405
Midfielder	Midfielder	4	72.2	8095	688	8.1	111.7	289	2311	11.5	296	30.1	43.5	50.5	0.85	5.08	-5.48	25435
Striker	Striker	3	40.4	4066	411	9.9	101.7	183	1059	10.3	205	31.2	26.3	35.3	0.73	4.84	-5.56	13107
Winger	Winger	3	56.0	5820	591	10.6	107.4	261	1519	15.7	340	31.0	37.7	50.3	0.74	5.24	-6.58	18826

Metabolic power: the export column is named “Load — Power Metabolic (W/kg)”, but values here span ~6325–36688 (team mean ~22627), which does **not** match typical match-mean metabolic power in the literature (~10–15 W/kg). Treat as **device / export raw units** for within-squad comparison only, or re-validate in WIMU before interpreting as true W/kg.

Individual player table

Player	Position	n	Dur (min)	Total (m)	HSR (m)	HSR %	m/min	HIBD (m)	HMLD (m)	Sprints	Sprint m	Vmax	HI acc	HI dec	Acc/Dec	Max acc	Max dec	MP (W/kg)
Team average	—	15	70.6	7057	571	8.1	101.9	270	1821	12.7	264	30.3	42.7	50.5	0.83	5.09	-5.90	22627

Figure 1 – External load profile

External load only (Total Distance): Top 10 outfielders and positional means (match day).

External load by player within positional peers (Fullbacks, Centerbacks, Midfielders, Wingers, Strikers) for quick within-group comparison.

Figure 2 — HSR and sprints profile

Combined HSR and sprint outputs: top outfield players and positional means.

HSR by player within positional peers (Fullbacks, Centerbacks, Midfielders, Wingers, Strikers) for quick within-group comparison.

Figure 3 — HI accelerations and decelerations by position peers

HI accelerations by player within positional peers for role-specific comparison.

HI decelerations by player within positional peers for role-specific comparison.

Figure 4 — High metabolic load ranking

Top outfield HMLD and positional mean HMLD to compare peak and role-level metabolic load.

HMLD by player within positional peers (Fullbacks, Centerbacks, Midfielders, Wingers, Strikers) for quick within-group comparison.

Glossary

External load (TD): Total distance covered (m), reflecting overall movement volume.

HSR / HID: High-speed running distance (m), distance covered above the high-speed threshold used in this export.

Sprints: Number of sprint actions (count) registered by the sprint definition in this dataset.

HI Acc / HI Dec: High-intensity accelerations and decelerations (count), representing mechanical load from rapid speed changes.

HMLD: High Metabolic Load Distance (m), distance accumulated under high metabolic-demand conditions.

Max-S: Maximum speed reached during the match (km/h).

Position mean: Average of players within the same position group for match day (MD).

Positional peers: Player-to-player comparison within the same position group (e.g., winger vs winger).
